

Beta Alpha Psi – Top Three Goals

Increase Gratitude

- Extending the gratitude by seeking more opportunities to recognize the contributions of key Beta Alpha Psi stakeholders. The organization will take additional steps to communicate the successes of students, chapters, faculty advisors and other stakeholders.

Widen the Reach – Think Globally, Act Locally

- The goal is to remove barriers to reach more students earlier in their academic careers. Specifically, the board agree to allow students to become candidate members as early as their first academic year on campus. Once a student has qualified to become a member, they can remain a candidate no more than one semester or two academic quarters.

Innovate Knowledge Sharing/Learn by Experience

- Innovating knowledge sharing by focusing on experiential learning for soft skills that are essential for graduates to have a smooth transition and early success in the workplace.
